PROFESSIONAL SUMMARY

Full Stack Developer building complete web apps end-to-end — React, Next.js & TypeScript frontends, PHP/REST API backends, MongoDB/SQL/Supabase databases. Experienced in AI integration and AI-assisted development for faster delivery. Shipped live projects: a jewelry eCommerce platform (admin panel, orders, inventory, automated emails) and B2B industrial websites (product search, quotation workflows, bulk email).

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: PHP, REST API Development, JSON APIs, Authentication & Authorization (User / Admin roles), SMTP Email Integration

Databases: MongoDB, SQL / MySQL, Supabase, JSON

AI & Automation: AI Integration (chatbots, smart features), AI-Assisted Website Development

Tools & Workflow: Git, GitHub, Vercel, Jira, ClickUp

PROJECTS

Gems Global Jewels — Full Stack eCommerce Website

- Built a complete full-stack eCommerce website for a Surat jewelry brand — rings, earrings, necklaces, solitaires, wedding bands and IGI-certified diamonds.
- Full admin panel with A-to-Z control: products & categories, pricing & discounts, inventory, orders, returns, banners and content.
- Implemented separate login/logout for customers and admins with role-based access control.
- Complete order management — cart, checkout, order tracking, cancellation and returns — with automatic transactional emails to customers on order placement, status updates and returns.
- Appointment & store-visit booking system letting customers schedule consultations and visits.
- Secure online payments; mobile-first, SEO-friendly storefront optimized for fast loading.

Avinya Electricals — Full Stack B2B Website for Industrial Supplier

- Developed a full-stack B2B website for a Vapi-based industrial electrical supplier stocking 40+ brands (Polycab, Havells, Legrand, ABB, Siemens, Crompton, L&T).
- User login/logout with smart product search and category/brand filters across wires & cables, switchgear, MCB/MCCB, contactors, motors & drives, PLC/HMI, lighting and safety products.
- “Get a Quotation” workflow — customers submit requirements from any product page; admin views every quote request in a dashboard and replies directly from the panel.
- Admin panel to add, edit and manage products, categories, price lists, blogs and banners.
- Bulk SMTP email campaigns to customer lists (price-list updates, offers) with reusable templates, plus inquiry management and SEO-optimized pages for product discovery.

Laksh Engineers — Full Stack Industrial Website (Hardware Industry)

- Full-stack industrial website on the same B2B architecture for the hardware & fluid-handling industry — valves, gaskets, hydraulic hoses, pumps, steam traps, actuators, pneumatics and automation (BDK, Festo, Forbes Marshall, K-Flow, Kranti, Nivz).
- Product catalog with search & technical filters, quote-request workflow with admin replies, full admin CRUD, bulk SMTP email campaigns and inquiry dashboard.

EDUCATION

Bachelor of Computer Applications (BCA) — VNSGU University, Surat (2023 – 2026)
